SOFTWARE DIRECTORY

Keyword Index & Program Information

Complete IBM Software Coverage

1990 Edition

This 1990 edition replaces prior versions.

References to IBM offerings do not imply that they are available in all countries in which IBM operates. The prices are shown in dollars and apply in the United States.

Address comments to IBM Software Directory DJ1, P.O. Box 2150, Atlanta, Georgia 30301-9949, or use the Reader Comment Card in the back. IBMers may also correspond worldwide on PROFS to SWDIR at ALTVM4. IBM may use or distribute information you supply without incurring obligation. You may, of course, continue to use the information supplied. Distribution and listing of programs is at the sole discretion of IBM, without charge to the author. Prices and other program characteristics are subject to change and are presented here for your information. They are subject to confirmation at the time the license commences.

Introduction

This 1990 edition of the Software Directory improves upon the cross reference format of the previous edition. An effort has been made to maintain the physical size of the directory while providing more product information in a clear and concise manner.

Contents

Section 1. Personal Computer 1-1

Section 2. Cooperative Software 2-1
Cooperative Software (Terms and Conditions) 2-3

Section 3. Keyword 3-1

Section 4. Software Clusters 4-1
Alphabetic Cluster Name Index 4-2
Major Interest Area Cluster Name Index 4-4

Section 5. Program Order Number 5-1
Definition and Codes 5-3
Service Codes 5-5

Appendix A. Acronyms A-1

Appendix B. Trademarks B-1
IBM B-1
Other Companies B-3

Appendix C. Agreement for IBM Licensed Programs C-1

Highlights of this Edition

- This edition contains an alphabetized cross reference format.
- The Personal Computer, Cooperative Software, Keyword and Software Cluster sections contain Program Order Numbers and Titles only in Title sequence.
- Prices and general product information are found in the Program Order Number section (Section 5).
- Explanation of codes and fields appearing in the Program Order Number Section can be found at the beginning of Section Five.
- IBM software programs that appear with a "+" are new since the last edition. Those that appear with a "—" have been withdrawn from marketing and will not appear in the next directory.
- Brief introductions precede each of the software sections. For general product information, please refer to the Program Order Number section.
- Prices are current as of March 6, 1990. Software withdrawn from marketing prior to October 1, 1989, is not listed.
- Send comments by completing the Reader Comment Card in the back of the book.

Software Section Overview

The five software sections appear in sequence as listed below. The Program Order Number and the Product Name are found in the first four sections. The final section, the Program Order Number section, contains software product information in addition to the Program Order Number and the Product Name.

Section 1. Personal Computer Programs (pink pages)

A list of PC Software Program Order Numbers and Titles marketed by IBM. Refer to Section 5 for additional product information.

Section 2. Cooperative Software Programs (blue pages)

IBM is authorized by certain vendors to present sales materials and take orders for their software programs. Your IBM Marketing Representative will assist you in ordering these products. Program Order Numbers and Titles are listed. Refer to Section 5 for additional product information.

Section 3. Keyword (white pages)

This section lists Program Order Numbers and Titles alphabetically by: a general word from the title of the software, a word associated with the title, or an acronym (short word) for the title. Refer to Section 5 for additional product information.

Section 4. Software Clusters (yellow pages)

Program Order Numbers and Titles are grouped into clusters by topics, system, and/or application area. An alphabetic index of cluster names and a major interest area index of cluster names are provided in the beginning of this section. The clusters are intended to overlap, therefore the same program may appear in several cluster lists. Refer to Section 5 for additional product information.

Section 5. Program Order Number (white pages)

This section provides general product information in Program Order Number sequence. Program Order Numbers can be found by referring to Sections 1 through 4.

How to Order

To order IBM Software or request information use the Order Card in the back. Complete the card using the Program Order Number or the Publication Number where indicated. (The Publication Number follows the "PUBS" code listed in the Program Order Number section). To order IBM Software or the IBM Software Directory by phone call IBM Direct (Continental U.S., Hawaii, Alaska, Puerto Rico) toll free 1-800-IBM-2468.

Refer to the Personal Computer and Vendor Cooperative sections for further guidance in ordering.

To subscribe to the Software Directory, indicate the quantity required on the Order Card. IBMers may also use code 1152 for DAPS subscriptions, or the form number GB21-9949 for SLSS.

Section 1. Personal Computer

Personal Computer

An alphabetic listing of programs bearing the IBM logo follows on Pages 1-13. Most may be ordered from your IBM Branch Office or are carried by IBM authorized dealers.

Most programs listed in this section bearing the IBM logo are offered under the terms and conditions of the IBM Program License Agreement included in each program package. This Agreement states that programs are provided "as is" without warranty of any kind, express or implied, except that program diskettes are warranted to be free from defects in material and workmanship for a period of ninety days from date of delivery. IBM may discontinue offering programs covered by this Agreement at any time.

Other licensed programs listed in this section that are PC related may be offered under the terms and conditions of the Agreement for IBM Licensed Programs (Z125-3358-02). For information regarding these programs contact your IBM Branch Office.

See Appendix C for highlights and a general overview of the Agreement for IBM Licensed Programs (Z125-3358-02).

Section 2. Cooperative Software

Cooperative Software

IBM markets selected software application programs, published by non-IBM sources, as Cooperative Software Programs. IBM will present the Cooperative Software Program supplier's sales materials, offer and represent the program, and take orders for it.

The Cooperative Software Program supplier is responsible for licensing, terms and conditions, prices, distribution, billing the customer, and accounts receivable. Either the Cooperative Software Program supplier or the customer is responsible for installation, customer education, and support and maintenance, depending upon the agreement between them.

The Cooperative Software Program supplier, or his IBM-approved agents may assist IBM in marketing the program and may participate in joint sales calls.

To order these non-IBM programs or for additional information contact your IBM Branch Office.

Cooperative Software Program prices are current as of April 3, 1990.

Cooperative Software Programs are not IBM licensed programs, and IBM makes no warranties with respect to them.

Cooperative Software (Terms and Conditions)

Prices: The prices listed for Cooperative Software Programs are for reference only and are as provided from the supplier's current price list. Current prices and quantity discounts, if any, can only be obtained from the program supplier. Program charges are subject to change without notice.

Program Validation: The features and functions of Cooperative Software Programs have only been validated through a random telephone survey of the program supplier's installed customers.

Technical Assistance: Technical assistance, installation and usage support are as provided by the program supplier. The program supplier and/or the customer may be responsible for installation depending upon the agreement between them.

Test Period: The test period, if any, is as provided by the program supplier.

Licensing: The Cooperative Software Programs are available from IBM as distributed by the program supplier. The terms and conditions are provided by the program supplier. IBM makes no warranties, express or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. Address any questions pertaining to warranty coverage to the program supplier.

Warranted: Not warranted by IBM. Warranty, if any, is as provided by the program supplier.

Quantity Discount: IBM Quantity Discount Agreements are not applicable to Cooperative Software Programs. Quantity discounts, if any, are as provided by the program supplier.

Educational Allowance: IBM Educational Allowances are not applicable to Cooperative Software Programs. Allowances, if any, are as provided by the program supplier.

Section 3. KEYWORD

Keyword

This section lists Program Order Numbers and Titles alphabetically by keyword. A general word from the program title, a word that is associated with the title, or an acronym (short name) may all be used as keywords. To locate the Program Order Number, simply scan the keyword columns of the page. Programs with the same keyword are grouped together in Program Order Number sequence. Programs may appear under more than one keyword. For general product information refer to Section Five.

ACA	
+5758-SPF	Speakeasy for the PS/2 (Aca)
ACADEMIC

Section 4. SOFTWARE CLUSTERS

Software Clusters

The following section groups all software into clusters by topic, system and/or application area. Refer to the alphabetic cluster name index and the major interest area index that precede this section to locate page numbers. The clusters will overlap, therefore the same program may appear in more than one cluster list.

Alphabetic Cluster Name Index

Cluster Name	Page	Cluster Name	Page
Academic Information Systems	4-7	Financial Services	4-36

Section 5. PROGRAM ORDER NUMBER

Program Order Number

This section lists product offerings in Program Order Number sequence. Cross reference Sections 1 through 4 to find the Program Order Number.

Notes

- Prices are current as of March 6, 1990.
- Software withdrawn from marketing prior to 10/1/89 is not listed.
- Charges, terms and other characteristics are for information purposes only and subject to change.
- IBM Licensed Programs are available under the Agreement for IBM Licensed Programs (Z125-3358-02).
- Applicable taxes will be added to the charges.

All information is subject to confirmation at the time of granting the license. Contact your IBM Marketing Representative for additional information. Refer to Appendix C for a general overview of the Agreement for IBM Licensed Programs.

Definitions and Codes

The Program Order Number section contains general product information. The format is intended to provide general product information in an easy-to-read manner. Following is an explanation of the fields as they appear in the listing.

Program Order Number: A typical Program Order Number will look like 5750-AFB. This entire section is in Program Order Number sequence.

Title: Program or feature title including version and release shown as VxRx where: V = Version, R = Release, x = any number indicating version or release level.

The title may be preceded by a "+" or a "–" where:

+ Program or release new since 10/1/89
– Program or release withdrawn from marketing after 10/1/89 and before publication of this edition.

Acronym: Short name or acronym for the program. For program numbers starting with 5799, the RPQ number will appear, if required.

Available Date: The latest announced availability date for this release or feature.

Pricing Indicator: When present, shows the following prices are either "Variable Charges" or "Incremental Tier Charges".

Prices: Each price shown will be preceded by a price code. The format for the price code is X/Y where:

X = License Type, values are:

B = Basic License
D = DSLO License
S = Single License Option
M = Multiple License Option

Y = Charge Type, values are:

O = One Time Charge
M = Monthly Charge
I = Initial Charge
A = Annual Charge
P = Primary Charge

Variable Charges: Variable Charges are determined according to Processor Group. The number for each applicable Processor Group will appear before its associated prices. Most current information regarding Processor Groups may be found in the following exhibits:

Z125-3901 Exhibit for IBM System/370 Machines
Z125-4125 Exhibit for IBM AS/400 Machines
Z125-4073 Exhibit for System/88 Machines
Z125-8309 Exhibit for IBM RISC System/6000 Machines

Incremental Tier Charges: The number for each tier will appear before its associated price increments. In order to find the price for any given tier, add all price increments from lower tiers. Some increments may be zero.

			Sample price calculation:
Tier 1	B/O	150	Tier 1 = 150
2	B/O	0	Tier 2 = 150 + 0 = 150
2*	B/O	25	Tier 2.5 = 150 + 0 + 25 = 175
3	B/O	0	Tier 3 = 150 + 0 + 25 + 0 = 175

* If the tier number appears as "2*" the actual tier number is "2.5".

Service Code: The following are codes for the Service Class. Specifics should be obtained from your IBM Marketing Representative.

A Central Service is provided.

C Central Programming Service is not provided.

E Central Service is available from the IBM Support structure or other source as designated in the Programming Announcement or Availability Notice.

F Central Service for one year after receipt, but not later than the expiration date stated in the Program Announcement or Availability Notice.

G Central Service for ninety days after receipt, but not later than the expiration date stated in the Program Announcement or Availability Notice. Licensee must return the Service Registration card to qualify.

H Central Service is available until the date shown in the Availability Notice or Program Announcement.

I Central Service is available at a fee until the expiration stated in the Availabilty Notice or Program Announcement. The fee is waived during a specified installation period.

L Central Service, including the IBM Support Center.

M Central Service, including the IBM Support Center.

Q Central Service provided through the host product, i.e., not on the XT or AT/370.

S Class 2 System Control Programming. Central Service available while the SCP remains current.

W Cooperative Software. Either the vendor or the customer is responsible for installation, customer education, support and maintenance depending on the agreement between them.

X Central Service has expired.

Y These programs are distributed by IBM but the IBM logo does not accompany the product. Description of service normally is provided by the licensor.

Z These Personal Computer programs are licensed and supported under individual terms and conditions included with the package.

Service End Date: This information will appear only if a Service End Date has been announced.

Test Period: Most programs have a test period of one or two months as indicated. "Y" indicates a test period of five days.

License: Following is a list of codes and their associated license types. Refer to Appendix C for an explanation of each license type.

```
S = Separate License          E = Courseware License
L = Location License          U = Usage License
I = Installation License
```

Publications: "Pubs" will appear when additional information is available on a Program. The Order Number for that information will appear and may be used on the Order Card in the back of the Book.

Environment: Describes the general environment for the program.

Appendix A. Acronyms

Acronym	Meaning
A	
ABARS	Aggregate Backup and Recovery Support
ACF	Advanced Communication Function
ACF/NCP	Advanced Communication Function/Network Control Program
ACF/SSP	Advanced Communication Function/System Support Program
ACO	Automated Console Operations
ACSE	Association Control Service Element
AD	Application Development
ADPS/M	Application Development Project Support/Application Development Model
ADPS/P	Application Development Project Support/Process Mechanism
AE	Application Execution
AEC	Architecture, Engineering, Construction
AFMT	Advanced Function Management Tools
AI	Artificial Intelligence
AIX	Advanced Interactive Executive
APF	Application Preparation Feature
API	Applications Program Interface
API/CS	Application Program Interface/Communication Services
APPC	Advanced Program-to-Program Communications
AS	Application System
AS/400	Application System/400
AVC	Audio Visual Connection
B	
BCS	Business Communications System
BTS	Batch Terminal Simulator
C	
CAD/CAM	Computer Aided Design/Computer Aided Manufacturing
CAE	Common Applications Environment
CALS	Computer-Aided Acquisition and Logistics Support
CDR	Call Detail Records

Acronym	Meaning
CEDS	COPICS Engineering Data Support
CIEDS	Computer Integrated Electrical Design
CIEDS/CBDS	Computer Integrated Electrical Design/Circuit Board Design System
CIM	Computer Integrated Manufacturing
CIM CDF	CIM Communications and Data Facility
CIMS	Comprehension Information Management for Schools
CMAS	Construction Management and Accounting System
CMS	Conversational Monitor System
CNAT	Central Node Administration Tool
CNM	Communication Network Management
COPICS	Communications Oriented Production Information and Control System
CPCS	Check Processing Control System
CPM	Critical Path Method
CSAS	Career School Accounting System
CSP	Cross System Product
CSP/AD	Cross System Product/Application Development
CSP/AE	Cross System Product/Application Execution
CSP/370RS	Cross System Product/370 Runtime Services
CUA	Common User Access
D	
DAM	Direct Access Method
DARPA	Defense Advanced Research Projects Agency
DBCS	Double Byte Character Sets
DBRC	Data Base Recovery Control
DBT	Data Base Tools
DCE	Data Circuit-terminating Equipment
DCF	Document Composition Facility
DCP	Document Composition Program
DDF	Distributed Data Facility
DDM	Distributed Data Management
DEDB	Data Entry Data Base
DEDB/PC	Data Entry Data Base Pointer Checker
DEDB/TA	Data Entry Data Base Tuning Aid
DEDB U/R	Data Entry Data Base Unload/Reload
DFDSS	Data Facility Data Set Services
DFHSM	Data Facility Hierarchical Storage Manager
DFP	Data Facility Product
DFSMS	Data Facility Storage Management Subsystem
DFSORT	Data Facility Sort
DISPF	Decision and Information Support Productivity Facility

Acronym	Meaning
DITTO	Data Interfile, Transfer, Testing and Operations
DM	Distribution Manager
DMAS	Distributors Management Accounting System
DMPX	Data Multiplexor
DMS/CMS	Display Management System/CMS
DoD	Department of Defense
DOS	Disk Operating System
DPPX	Distributed Processing Programming Executive
DPPX/370	Distributed Processing Programming Executive/370
DSNL/2	Direct S.W.I.F.T. Network Link/2
DSNX	Distributed Systems Node Executive
DSLO	Distributed System License Option
DTE	Data Terminal Equipment
DTL	Dialog Tag Language
DXT	Data Extract
E	
ECDB	Engineering Catalog Design Base
ECF	Enhanced Connectivity Facility
EDI	Electronic Data Interchange
EDX	Event Driven Executive
EIA	Electronic Industries Association
EMCS	Enterprise Management Control Series
EMS	Event Manager Subsystem
EP	Emulation Program
ESA	Enterprise Systems Architecture
ESSL	Engineering & Scientific Subroutine Library
F	
FAWN	Forms Available When Needed
FBSS	Financial Branch System Services
FLSF	Font Library Service Facility
FPGP	Floating Point Graphics Protocol
FRR	Fast Reorganization Reload Utility
FSI	Financial Services Industries
FTAM	File Transfer Access & Management
FTPS	Financial Transaction Processing System
FTTERM	File Transfer and Terminal Emulator
G	
GAM/SP	Graphics Access Method/System Product
GDDM	Graphical Data Display Manager
GFIS	Graphic Facilities Information System

Acronym	Meaning
GIM	Geometry Interface Module
GKS	Graphical Kernel System
GPG	Graphics Program Generator
H	
HESC	Higher Education Software Consortium
HLLAPI	High Level Language Application Program Interface
HMC	Hybrid Microcircuits
HPO	High Performance Option
HSP	Host Support Program
HSSR	High Speed Sequential Retrieval
HSX	Host Support Extensions
I	
IBA	Integrated Banking Applications
IDRC	Improved Data Recording Capability
IE	Information Exchange
IES	IBM Educational Systems
IFTS	International Funds Transfer System
IGES	Initial Graphics Exchange Specification
IPDS	Intelligent Printer Data Stream
IRC	International Record Carrier
ISA	Information System for Attorneys
ISMF	Interactive Storage Management Facility
ISO	International Standards Organization
ISPF	Interactive System Productivity Facility
ISPF/PDF	Interactive System Productivity Facility/Program Development Facility
K	
KBS	Knowledge-based System
L	
LAN	Local Area Network
LMF	Library Management Facility
LMU	Library Management Utilities
M	
MAP	Manufacturing Automation Protocol
MAPICS	Manufacturing Accounting and Production Information Control System

Acronym	Meaning
MAPICS/DB	Manufacturing Accounting and Production Information Control System/ Data Base
MERVA	Message Entry and Routing with Interfaces to Various Applications
MERVA/2	Message Entry and Routing with Interfaces to Various Applications/2
MFS	Message Format Services
MMS	Manufacturing Message Specification
MPA	Manufacturing Performance Analysis
MPIF	Multiprocessor Interconnect Facility
MPS	Mathematical Programming System
MRI	Machine Readable Information
MSDS	Material Safety Data System
MSHF	Matrix Switch Host Facility
MVS	Multiple Virtual Storage
MVS/CNAT	Multiple Virtual Storage/Central Node Administration Tool
MVS/DFP	Multiple Virtual Storage/Data Facility Product
MVS/TSO	Multiple Virtual Storage/Time Sharing Option
N	
NCP	Network Control Program
NCPG-XLWS	Numerical Control Post Processor Generator Execution Library for Workstation
NCS	Network Computing System
NEC	Network Event Communicator
NETBIOS	Network Basic Input/Output System
NETDA	Network Design and Analysis
NetView DM	NetView Distribution Manager
NLV	National Language Version
NMVT	Network Management Vector Transport
NPM	NetView Performance Monitor
NPSI	Network Control Program Packet Switching Interface
NRF	Network Routing Facility
NSF	Network Supervisory Function
NSI	Non-SNA Interconnection
NTO	Network Terminal Option
O	
ODPS	Office and Document Processing System
ODS	Online Delivery System
OFA/VM	Office Facsimile Application/VM
OFSP	Office Support Program
OGL	Overlay Generation Language

Acronym	Meaning
OLR	Online Routing
OPC/A	Operations Planning and Control/Advanced
OSI	Open Systems Interconnection
OSL	Optimizations Subroutine Library
OV/VM	OfficeVision/VM
P	
PCNM	PC Node Manager
PCS	Production Control System
PCS-ADS	Patient Care System -- Application Development System
PCS-ORDERS	Patient Care System -- Orders
PCS-PA	Patient Care System -- Patient Accounting
PCS-PM	Patient Care System -- Patient Management
PDF	Program Development Facility
PDS	Partitioned Data Base
PDSE	Partitioned Data Set Extended
PHIGS	Programmed Hierarchical Interactive Graphics
PL1TEST	PL/1 Interactive Test Facility
PMF	Print Management Facility
PNA	Programmable Network Access
POSIX	Portable Operating System Interface for Computer Environments
POWER	Performance Optimization with Enhanced RISC
PSDN	Packet Switched Data Network
PSF	Print Services Facility
PWS	Progrmmable Workstation
Q	
QMF	Query Management Facility
R	
RACF	Resource Access Control Facility
RCF	Remote Console Facility
RDBMS	Relational Data Base Management System
RDS	Remote Data Services
RFT	Revisable Text Format
RFTDCA	Revisable Form Text Document Context Architecture
RIPSS	Retail Industry Programming Support Services
RMF	Resource Measurement Facility
RPM	Remote Print Manager
RRDF	Remote Recovery Data Facility
RSCS	Remote Spooling Communications Subsystem

Acronym	Meaning
RSP	Remote System Programming
S	
SAA	Systems Application Architecture
SAMON	SNA Application Monitor
SBCS	Single Byte Character Set
SCLM	Software Configuration and Library Manager
SCSE	Supercomputing Systems Extensions
SDF	Screen Definition Facility
SDLC	Synchronous Data Link Control
SDO	Sequential DAM Optimizer
SDSF	System Display and Search Facility
SEDF/2	Self Education Facility on the Personal System/2
SEF/PC	Self Education Facility on the IBM Personal Computer
SFS	Shared File System
SGML	Standard Generalized Markup Language
SLR	Service Level Reporter
SMFF	SCRIPT Mathematical Formula Formatter
SMTP	Simple Mail Transfer Protocol
SMU	Space Management Utilities
SNA	Systems Network Architecture
SNA/SDLC	Systems Network Architecture/Synchronous Data Link Control
SNBU	Switched Network Backup
SP	System Product
SPCF	Service Point Command Facility
SRTOS	Special Real Time Operating System
SSP	System Support Program
STAIRS	Storage and Information Retrieval System
S.W.I.F.T.	Society for Worldwide Interbank Financial Telecommunication
T	
TCP/IP	Transmission Control Protocol/Internet Protocol
TIRS	The Integrated Reasoning Shell
TNM	Transmission Network Manager
TPF	Transaction Processing Facility
TPNS	Teleprocessing Network Simulator
TSR	Terminate and Stay Resident
U	
UDP	User Datagram Protocol

Acronym	Meaning
V	
VM	Virtual Machine
VM/CMS	Virtual Machine/Conversational Monitoring System
VM/SE	Virtual Machine/Software Engineering
VM/SP HPO	Virtual Machine/System Product High Performance Option
VM/XA SP	Virtual Machine/Extended Architecture System Product
VMPPF	Virtual Machine Performance Planning Facility
VPCA	VTAM Protocol Conversion Application
VRU	Voice Response Unit
VSE/AF	VSE Advanced Functions
VSE/PT	VSE Performance Tool
VTAM	Virtual Telecommunications Access Method
VTSS	Vocational and Technical School Series
W	
WPC	Word Processing Choice
WYS/WYG	"What You See Is What You Get"
X	
XA	Extended Architecture
XI	X.25 SNA Interconnection
XSI	X/Open Systems Interface

NOTE: The preceding should not be construed as a comprehensive list of trademarks.

Appendix C. Agreement for IBM Licensed Programs

General Overview:

This overview summarizes and presents the key provisions of the Agreement for IBM Licensed Programs (Z125-3358-02) in general terms. It is intended for information purposes only. All questions regarding specific terms and conditions should be directed to your IBM representative or your local IBM branch office.

The Agreement for IBM Licensed Programs is a license agreement and not an agreement for sale. IBM retains title to the copy of the Program and any copies made from it.

Programs become subject to the terms of this Agreement when IBM accepts an order by shipping the Program or by providing the customer with a supplement to this Agreement or other IBM-designated documentation. Upon the customer's receipt of the Supplement, IBM grants a nontransferable and nonexclusive license in the United States and Puerto Rico. The Program may not be transferred without IBM's written consent.

IBM will specify supplemental terms in a Supplement and in either the Licensed Program Specifications or the notice of availability. Initial use of the Program or initial payment constitutes acceptance of the terms by the customer.

For variable charge Programs, IBM provides Exhibits which list either IBM or non-IBM machines by group. IBM will specify, in a Supplement, the applicable group as a feature of such Programs. From time to time, IBM may revise Exhibits, modifying any information or terms and conditions in the Exhibit.

DEFINITIONS: The term "Program" means instructions or statements in machine readable form, any data base in machine readable form, and/or any related materials, including documentation and listings whether in machine readable or printed form. Programs are copyrighted.

"Restricted materials" are those portions of a Program which are labeled "Restricted Materials of IBM".

"Use", relating to a Program, means copying any portion of the Program into a machine and/or transmitting it to a machine for processing.

"Designated Machine" means the machine, specified in a Supplement, on which the Program is used for processing.

"Group" means the machine group of the Designated Machine.

"Variable charge Programs" means those Programs whose charges are based on the group of the Designated Machine and include graduated charges, processor-based charges and other charges designated by IBM.

LICENSE: The customer is authorized to use the machine readable portion of the Program on the Designated Machine and to store, transmit through, and display it on associated machines. Customers may also use the printed portion of the Program and/or copy or translate the machine readable portion into any machine readable or printed form in sufficient copies to support authorized use of the Program.

The customer may not copy Programs provided by IBM in printed form, microfiche or other non-machine readable form. Additional copies of the Program may be licensed at applicable charges.

A separate license is required for each machine on which the Program is used, unless otherwise specified.

The customer may not reverse assemble or reverse compile Programs.

A subsequent Program release will be made available to the customer for use on a Designated Machine while a previous release is still in productive use on that Machine. However, Program services may not be available for previous releases. A subsequent Program release has the same number as the previous release.

Customer authorization for use of restricted materials is limited to making modifications to the Programs containing restricted materials and/or the customer's products/programs so they will function with the Programs containing restricted materials. Authorization is extended for assistance in problem determination, problem source identification or problem resolution activities associated with the use

of Programs containing restricted materials. The customer must also comply with the provisions of the *Permission to Modify* Section.

These provisions also apply to restricted materials distributed for an IBM Education Course.

Temporary License Transfer: A Program can be temporarily transferred to a backup machine if the Designated Machine is inoperable or cannot assemble or compile the Program.

Installation License: An Installation License is a designation specified for certain Programs, that allows those Programs to be used on any other machine in the same installation as the Designated Machine. "Same installation" means a single room or contiguous rooms.

Location License: A Location License is a designation specified for certain Programs, that allows those Programs to be used on any other machine in the same location as the Designated Machine. "Same location" means a single building designated by a single mailing address.

Usage License: A Usage License is a usage restriction for selected Programs. A separate license or additional feature is required for use of the Program which exceeds the usage restriction.

Change in Designated Machine: You will notify IBM of a change in Designated Machine and date.

For variable charge Programs, a change in Designated Machine may result in a change in the applicable group. Variable charges associated with the new group are effective on the date the Designated Machine is changed. IBM will notify the customer of the effective date of the new charges.

Machine Upgrades and Downgrades: For variable charge Programs, installation of an upgrade or downgrade to the Designated Machine may result in a change in the applicable group. The variable charges associated with the new group will be effective when the machine upgrade or downgrade is installed. Upon written request from IBM, the customer will certify in writing that the Designated Machine groups are accurate.

Group Reassignment: For variable charge Programs, any reassignment by IBM of a Designated Machine in a revised Exhibit may result in the existing applicable licenses being reassigned to a new group. Charges will be levied according to the new group.

Additional Licenses: Upon receipt of a Supplement specifying the Effective Date for Additional License, the customer may copy the machine readable portion of the Program previously distributed from IBM in lieu of another shipment. Any testing period for the Additional License begins on the Effective Date for Additional License.

Distributed Systems License Option (DSLO): For Programs offered with a DSLO, the customer may obtain a license in addition to the initial license (Basic License) for a DSLO charge. Under the DSLO, the customer will:

- Copy the machine readable portion of the Program and use the copy on a DSLO Designated Machine.
- Provide problem documentation to IBM from the Basic License's location.
- Distribute to, install and test on the DSLO Designated Machine any new release, correction, or bypass provided by IBM to the Basic License Designated Machine.
- Receive Program services and warranty, if any, only through the Basic License location.

There will be no testing period for DSLO licenses.

The customer must designate a new Basic License as a replacement for a discontinued Basic License.

Discontinuance of Licenses: The customer may discontinue a license upon one month's written notice, except during the testing period, when the license may be discontinued immediately with written notice from the customer.

IBM may discontinue any license upon written notice effective immediately if the customer fails to comply with the terms and conditions of this Agreement.

CHARGES: Charges for Programs may fall into one of the following: initial, periodic, one-time, process, or upgrade.

For certain Programs, IBM may designate one or more replacement Programs. When a discontinued Program is replaced, upgrade charges may apply to the replacement Program. When IBM specifies, the replacement Program may be obtained prior to replacement of the discontinued Program

For variable charge Programs, the customer will pay charges based on the applicable group. If a variable charge Program is licensed for use on a Designated Machine not listed in an Exhibit, the charges for the group with the highest charges apply.

Commencement and Invoicing of Charges: Periodic charges will be invoiced in advance and commence on the day, Monday through Friday, following the end of the testing period, or ten days after shipment. Monthly charges will be prorated, based on a 30 day month. Other periodic charges are not prorated and are not refundable.

One-time charges, initial charges and upgrade charges will be due on the day, Monday through Friday, following the end of the testing period, or 10 days after shipment, if there is no testing period.

For an Additional Copy with no testing period, periodic charges will commence and other charges will be due on the Effective Date for Additional License.

Process charges are due when invoiced and are not refundable.

Payment will be made as stated in the invoice.

Applicable Taxes: The customer agrees to pay any taxes resulting from this Agreement, except taxes based on IBM's net income.

Price Changes: Periodic charges are subject to change with three months' prior written notice.

One-time, process, upgrade, or initial charges are subject to change upon notice, effective immediately. An increase will not apply if IBM shipped the Program or the customer made an Additional Copy before the date of the notice. If a written order is received before the announcement, the increase will not apply if, within three months of

the date of notice, IBM ships the Program, the customer makes an Additional Copy or a group upgrade occurs for a variable charge Program.

SHIPMENT: IBM will specify the estimated shipment date of each Program. Either party may change it as necessary.

EARLY SHIPMENT OF PRINTED MATERIALS: Upon customer request, following the Program's general availability, IBM will ship the Program's printed portion up to six months before shipping its machine readable portion.

PROGRAM TESTING: IBM will specify a testing period, if any, during which the Program will be available for nonproductive use to determine if the Program meets customer requirements. The testing period will begin on the day following 10 days after shipment or the Effective Date for Additional License.

If the Program is discontinued during the testing period, charges, other than process charges, will not be due.

The customer is required to notify IBM if the Program is used for productive purposes during the testing period. The testing period will end as of the date productive use began.

RISK OF LOSS: IBM assumes risk of loss or damage during shipment. Program material lost while in the possession of the customer will be replaced at the applicable charges, if any, for processing, distribution and/or storage media.

MACHINE READABLE DOCUMENTATION: IBM may make available machine readable documentation which may include IBM-designated "L", "G" and "S" manuals. IBM may provide such documentation as a feature for a Program. The customer may use, copy and modify such documentation as IBM specifies.

PROGRAM SERVICES: IBM will specify the Program services, if any, which IBM will provide without additional charge for a current release of a Program. Program services will be available after shipment of the Program or on the Effective Date for Additional License.

When IBM specifies Central Service, IBM will designate one or more service locations which will accept documentation indicating that a defect in the Program is causing a problem. Central Service will respond to a defect in an unaltered current release of the Program by issuing information which corrects the defect, corrected documentation or code, or a restriction or bypass.

Central Service will respond only to defects which occur when Central Service operates the Program in a Specified Operating Environment.

IBM may also establish a Support Center to provide the customer with telephone assistance.

For each version of a Program, IBM will specify that Program service, if any, will be available until discontinued by IBM upon six months' written notice, until a disignated date or for a designated number of months.

When a subsequent Program release becomes available, IBM may discontinue Program services for any or all previous releases. IBM does not guarantee service results or that IBM will correct all Program defects.

PERMISSION TO MODIFY: Customers may modify the machine readable portion of the Program and/or merge it with other programs for their own use. Any portion of the Program included in the updated work is subject to this Agreement. Upon discontinuance of the license for the Program, the Program must be completely removed from the updated work.

PROTECTION AND SECURITY: In order to satisfy the obligations under this Agreement the customer will:

- Take appropriate action by instruction, agreement or otherwise, with any persons permitted access to any Program.
- Not distribute any Programs to any other persons, including other licensees, without IBM's written consent.

- Reproduce and include the copyright notice(s) and other legend(s) on any copies of the Program made by the customer following IBM's copyright instructions.
- Maintain records of the number and location of all copies of the Program. IBM must be notified in writing if the original or any copy of the Program will be kept at premises other than that of the Designate Machine.
- Insure, before disposing of any media, that any Program contained on it has been erased or destroyed.

The customer may make the Program available to their employees, IBM employees or other persons either during the period they are on the customer premises or authorized for remote access. The Program may not be made available in any form to any other persons without IBM's written consent.

Only the customer may access any Program data base. The customer may not make any data in the data base available to any other person.

LICENSED PROGRAM SPECIFICATIONS: For each warranted Program, IBM will provide a document, "Licensed Program Specifications", which may be updated occasionally.

Each Program is designed to operate on one or more IBM machine types and with other IBM equipment and programs. The Specified Operating Environment is stated in the Licensed Program Specifications for warranted Programs and in the Program's availability notice for "AS IS" Programs.

WARRANTY: IBM warrants that each Program specified by IBM as warranted, when shipped to the customer, will conform to its Licensed Program Specifications, if properly used in a Specified Operating Environment.

The customer may notify IBM during the period Program services are available if the customer believes the Program does not meet its Specifications.

IBM does not warrant that the functions contained in a Program will meet the customer's requirements or will operate in the combinations

which may be selected for use or that the operation of the Program will be uninterrupted or error free.

RETURN OR DESTRUCTION OF PROGRAMS: Within one month after the date of discontinuance of any Program, the Agreement requires the return or destruction of all applicable copies of the Program. A copy may be retained for archieval purposes with IBM's written authorization.

When licensing a new version of the Program with a different Program number, the customer may retain the previous version without charge for up to three months after the date of discontinuance. The customer may use the previous version only if a defect in the new version prevents its use.

The requirement to return or destroy also applies to a Program which is a data base. However, this does not apply to individual pieces of data obtained from the data base.

After the discontinuance and upon IBM's written request, the customer will certify full compliance with these terms.

PATENTS AND COPYRIGHTS: IBM will, at its expense, defend the customer against a claim that any Program furnished under this Agreement infringes on a patent or copyright in the United States or Puerto Rico. IBM will also pay all costs, damages, and attorney's fees awarded as a result of the claim. In order to qualify for such defense and payment, the customer must promptly notify IBM in writing and allow IBM to control, and fully cooperate with IBM in, the defense and all related settlement negotiations.

IBM may, at its option and expense, either secure the right to continue using the Program, or replace or modify it so that it becomes noninfringing. If neither of the foregoing alternatives is reasonably available, the customer will return the Program upon IBM's written request.

IBM shall have no obligation with respect to any claim based upon customer modification of a Program, or its combination, operation or use with apparatus, data or programs not furnished by IBM, or its use in other than the Specified Operating Environment.

LIMITATION OF REMEDIES: In all situations involving performance or non-performance of warranted Programs, IBM will attempt to make the Program operate as warranted. If, after repeated efforts, IBM does not provide such a remedy, the customer shall be entitled to recover actual damages to the limits set forth in the *Limitation of Remedies* Section of the Agreement for Licensed Programs.

GENERAL: The customer may not assign this Agreement or sublicense any license.

The customer accepts the responsibility for selection, installation, use and results obtained from the use of the Programs.

The customer may terminate this Agreement upon one month's written notice only when all licenses are discontinued and all Programs have been returned or destroyed.

This Agreement may be terminated by either party for failure to comply with the terms and conditions.

IBM may modify the terms of this Agreement upon three months' written notice.

If there is a conflict between this Agreement and its Exhibit, the terms and conditions of the Exhibit shall prevail.

Printed in U.S.A. GB21-9949-27
